

**Our Customers contributes to the World Development : New Holland Tractor & FIELDKING multi crop Harvesters .**

The innovating products of New Holland Tractor ( TD5.90 ) is the latest in field tractor technology with affordable costs and very low maintenance . Similarly the FIELDKING Multi Crop Harvester with Hydrostatic transmission of 40cc & electromagnetically operated valve is a breakthrough in the post-harvest technology .

Both these products help transform millions of acreage of land in to productive food making factory to serve the ever-growing and hungry world . Miles and miles of arid land is tilled and put to productive use by these low cost and innovative machinery which is made in India and shipped across the world .

**United Shipping Services. New Delhi office** handles these shipments in 40'HQ ocean freight containers ( we load 3 to 4 equipment's per container ) EX WORKS from their factories in Haryana (India) to Ecuador. South America every week for distribution to remote areas of South America .

**FIELDKING**
